# GEN 2

Enlarge Your Putting Knowledge

# IN-DEPTH SOFTWARE

The sensor along with the App are the core of the Capto Putting System.

The Capto App is compatible with Windows, MacOSX, Android and iOS.

You can use one sensor with all your devices (unlimited), and share the data between them with our unique cloud database.

The software interface is the same for all devices. The data provided by the sensor allows to measure over **40 parameters**.

# TECH SPECS

- Instant Feedback
- 180 min Battery
- All The Data
- Easy Setup
- Only 53g/1,86oz
- Tri Sensors
- Aim
- USB-C
